Westman Laboratory Staff Strike Averted

For Immediate Release: November 14, 2011

Diagnostic Services of Manitoba (DSM) and the Manitoba Government Employees Union (MGEU) reached an agreement the evening of November 10 and a strike at Westman Laboratory has been averted.

All laboratory services across the province will continue as per usual.

“Patient care and safety has been our primary concern and we are pleased to have reached an agreement in time to allow the continuation of services at Westman Lab,” said Jim Slater, Chief Executive Officer. “We thank everyone for their understanding and patience over the past several weeks.”
