To: IERHA Physicians, Clinicians and Doctor's Offices
From: Jeff Beresford, Diagnostics Director
CC: Dr. Amin Kabani (CMO, DSM), Ron Van Denakker (CEO, IERHA)
Subject: Upcoming Diagnostic Imaging and Phlebotomy Services Disruptions- move to new Selkirk Hospital

Diagnostic Imaging, Cardiology and Phlebotomy Services Disruptions- move to new Selkirk Hospital

Lab and Diagnostic Imaging Services will be in transition to the new Selkirk Regional Health Centre beginning June 2017. Please note the following service disruption dates. These disruptions are to accommodate the move of equipment and supplies to the new site.

Service	Dates Affected	What to do
Lab Phlebotomy Services	June 23	Outpatient phlebotomy at the Selkirk Hospital and Selkirk Medical Centre will be closed. Open the next business day (June 26)
X-Ray	June 5- June 25	No service for elective outpatients. ER and inpatient x-ray imaging will be available. Refer outpatients to have imaging done at an alternate site: Arborg, Ashern, Beausejour, Eriksdale, Gimli, Lac du Bonnet, Pinawa, Pine Falls, Stonewall or Teulon
Computed Tomography	June 19- 26	Patients requiring emergent CT scans should be referred to an alternate site. (See attached procedure) Urgent and Routine scans can be sent and will be scheduled for June 27 and later.
